

BHAVIN GUNJARIYA

React / React Native Developer

bhaving1112@gmail.com | +91 90336 60048 | Ahmedabad, Gujarat, India

PROFESSIONAL SUMMARY

Results-driven React / React Native Developer with 4+ years of experience designing and shipping scalable web and mobile applications, including 2+ years of experience leading cross-functional engineering teams, across healthcare, fintech/NBFC, e-commerce, real estate, event marketplace, and social networking domains. Proven track record delivering 15+ production applications spanning role-based platforms, real-time systems, and payment integrations, while owning end-to-end product delivery from client communication and requirements gathering through to production deployment. Skilled at translating complex business requirements into pixel-perfect, high-performance user experiences.

TECHNICAL SKILLS

Core:

React.js, Next.js, JavaScript, TypeScript, Redux / Redux Toolkit, React Native, React Native CLI, Expo

UI & Animation:

Tailwind CSS, Material UI, Ant Design, Bootstrap, Styled Components, GSAP, Framer Motion, React Native Reanimated, React Native Gesture Handler, React Native Paper, Lottie

Integrations:

Razorpay Payment Gateway, Socket.io (real-time), Firebase, REST API Integration, Native Module Integration, React Navigation

Tooling & Deployment:

Git, Webpack, VS Code, Android Studio / XCode, App Store & Play Store Deployment

AI Tools & Workflows:

Claude (Anthropic), ChatGPT (OpenAI), Gemini / AI Studio (Google), Antigravity, GitHub Copilot, Amazon Q Developer, AWS Q Chat Extension, Figma Make, OpenCode, DeepSeek Harness

Context Management:

Implemented RTK and code-review-graph workflows to preserve and manage context across third-party AI agents and harness tools

SOFT SKILLS

Team Collaboration, Communication, Mentoring, Code Reviews, Time Management, Problem Solving, Agile Methodologies, Adaptability, Creativity, Critical Thinking, Fast Learner, Client Communication & Requirements Gathering, Cross-Functional Team Leadership, Ownership & Accountability, Stakeholder Management

EXPERIENCE

Mighty Ventures — ReactJS / NextJS / React Native Developer

Aug 2024 – Present

- Led frontend development across multiple domains including healthcare management platforms, fintech/NBFC loan systems, event marketplace platforms, and car rental applications for both web and mobile
- Gained expertise in building role-based access control systems, real-time features with Socket.io, payment gateway integrations (Razorpay), and complex multi-step form workflows with validation
- Learned enterprise-level architecture patterns, design system implementation, and established engineering best practices for scalable applications
- Worked extensively with Next.js, React.js, React Native, TypeScript, Redux Toolkit, Material-UI, Tailwind CSS, Ant Design, React Hook Form, Yup validation, ApexCharts, Framer Motion, Firebase, Socket.io, and CKEditor 5
- Delivered pixel-perfect, high-performance UIs with consistent user experience across web and mobile platforms, focusing on accessibility and responsive design
- Led a cross-functional team of 5 (frontend, backend, UI/UX, QA/QC, and CMS) to deliver products end-to-end — from client communication and requirements gathering through to production deployment

Acquaint SoftTech — React Native Developer

Nov 2023 – June 2024

- Specialized in React Native cross-platform development with focus on creating reusable UI component libraries and design systems
- Mastered advanced animations using React Native Reanimated for smooth, gesture-driven interactions and engaging mobile experiences
- Developed production-ready UI kits across multiple domains including e-commerce fashion apps, payment management systems, real estate applications, and multi-platform shopping ecosystems
- Learned component library architecture, documentation patterns, npm package publishing, and native module integration for platform-specific functionality

LNx Cloud Technology — ReactJS / React Native Developer

Jan 2022 – Nov 2023

- Led React Native projects across diverse domains including social networking platforms, interactive polling applications, creative design tools, and video sharing platforms
- Gained extensive experience in real-time communication systems, implementing WebSocket connections, AWS DynamoDB integration, and Django backend services
- Developed complex gesture-based interfaces using React Native Gesture Handler for drag-and-drop functionality and intuitive navigation patterns
- Learned to convert Figma design systems into pixel-perfect React Native components, ensuring visual consistency and seamless user experiences

PROJECTS

Mighty Ventures — Company Projects

RAS — Car Rental Website

React.js, Tailwind CSS

- Built a responsive car rental web application with role-based access control, dynamic multi-parameter car listing filters, a three-tier booking system, and a dedicated vendor portal.

RAS — Car Rental Application

React Native

- Extended the RAS platform into a cross-platform mobile app covering the complete booking lifecycle (new / advance / close) with role-based dashboards for admin, vendor, and customer users.

Event Bazaar — Marketplace Platform (Web)

Next.js, TypeScript, Redux Toolkit, Socket.io, Razorpay, Tailwind CSS, Material-UI

- Built a web event marketplace connecting 1,000+ vendors across 50+ categories, featuring multi-role dashboards, real-time Socket.io chat, quote management, Razorpay payment integration, a subscription system, advanced filtering, and “Bazaar Buddy,” an AI-powered event planning assistant.

Event Bazaar — Mobile Application

React Native, TypeScript, Redux Toolkit, Firebase, Socket.io, React Native Reanimated, Lottie

- Built the cross-platform iOS/Android companion app connecting event planners with vendors, featuring real-time Socket.io chat (EB Community), vendor profile management with portfolios, and a lead-tracking dashboard.

Ratnaafin — NBFC Financial Platform

Next.js, TypeScript, Tailwind CSS, Material-UI, Swiper.js, ApexCharts, CKEditor 5, React Dropzone

- Built an MSME loan platform featuring an interactive EMI calculator with real-time calculations and ApexCharts visualizations, a role-based admin dashboard for loan/user/CRM management, and a multi-step loan application flow with document upload.

ASAAR Health — Healthcare Management Platform

Next.js, TypeScript, React Hook Form, Yup, Tailwind CSS, Material-UI, Ant Design

- Built a healthcare platform with role-based dashboards for patients, doctors, and admins, real-time multi-clinic appointment booking, an advanced prescription system, and 9+ specialized medical intake forms with automated PDF generation.

Mighty Ventures CRM Dashboard

React.js, TypeScript, Material-UI, Tailwind CSS, Socket.io, React Hook Form, Yup, ApexCharts, Framer Motion

- Built an internal enterprise CRM featuring sales pipeline management, project management with task assignment and timesheet tracking, a recruitment hub, and 10+ modular business operations modules.

Founders+ — Founder Mentorship Platform

Next.js, TypeScript, Tailwind CSS

- Built the public-facing platform for an 18-month startup mentorship program, including a 16-dimension founder diagnostic assessment (120+ questions), an application/cohort intake flow, and a content library (₹1 Cr Insight Series).

GIC — Diagnostic Center Management Platform

Next.js, TypeScript, Redux Toolkit, Ant Design, Tailwind CSS, Node.js, Express, MongoDB, Socket.io

- Built a full-stack management platform for a diagnostic/radiology center, covering patient records, appointment scheduling, investigation and modality tracking, referral doctor management, patient billing with payment history, and report document generation, with role-based dashboards for admin and receptionist users.

Acquaint SoftTech — Company Projects

PerdilUI — React Native UI Component Library

React Native, Tailwind CSS

- Built a comprehensive, customizable React Native UI component toolkit styled with Tailwind CSS to accelerate rapid mobile app development.

Mobile UI Kit Collection

React Native, React Native Reanimated

- Built three production-ready React Native UI kits: a fashion e-commerce app with product galleries and user flows, a payment management app with multi-card/bank support and transaction tracking, and a real estate app with property listings and advanced filtering — all featuring smooth Reanimated-driven animations.

Glover — Customer App UI

React Native, React Native Reanimated

- Built the customer-facing interface for a multi-platform shopping ecosystem connecting users with vendors and drivers, covering shopping flows, order tracking, and checkout as part of a three-app marketplace solution.

LNx Cloud Technology — Company Projects

GreenLync — Social Networking App

React / React Native, AWS DynamoDB, Redux Toolkit, WebSocket

- Built a feature-rich social networking platform with real-time messaging, community forums, user profiles, and interactive engagement features for community building.

Ponder — Social Polling Platform

React Native, React Native Reanimated

- Built a social media platform centered on polls instead of posts — users create polling questions with custom options for others to vote on, with full profile management (photo, edit profile), like/share/comment, reporting, and blocking functionality.

Tiles Album — Creative Design App

React Native, Django, Redux Toolkit, React Native Gesture Handler

- Built a creative design app for creating and sharing custom tile layouts, with an intuitive drag-and-drop interface, cloud storage for project management, and social sharing features.

Klipzy — Video Sharing Platform

React Native, Django, Redux Toolkit, React Native Gesture Handler

- Built a video sharing application enabling users to upload, edit, and share video content, with cloud storage, social engagement features, and gesture-based navigation.

ACHIEVEMENTS

- Employee of the Month — Mighty Ventures (August 2025)

CERTIFICATIONS

- AI Tools & ChatGPT Workshop — be10X (February 2026)

EDUCATION

Geetanjali Group of Colleges — BCA

2020 – 2023

Shree S.V. Virani High School — SSC & HSC

2018 – 2020
